### Aims and scope

*Academic Journal of Economic Studies* is a Romanian academic publication, edited by "Dimitrie Cantemir" Christian University in Bucharest.

The *Academic Journal of Economic Studies* wants to become an important journal that publishes high quality original studies disseminates economic results of scientific research in economics from academic and business world. The journal focuses on promoting research worldwide, encouraging international dialogue and supports the exchange of ideas between researchers across the academic and business world.

The *Academic Journal of Economic Studies* is an open access journal and is a valuable scientific resource; published articles are available online without restriction to researchers, practitioners, students and other categories of users. The journal's frequency is quarterly. Month's appearance will be: March, June, September and December.

Annually, *Academic Journal of Economic Studies* publishes a special issue dedicated to higher doctoral studies. In collaboration with various representative organizations, Academic Journal of Economic Studies publishes special issues dedicated to annual conferences in the economic field.

The journal encourages the submission of interdisciplinary studies, international empirical research and comparative analysis. Articles are accepted for publication after a rigorous, anonymous and impartial evaluation of each article separately by specialized scientific reviewers.

### Areas

The journal publishes original theoretical and empirical studies only of high quality and general interest in the following thematic areas not limited only to: accounting, auditing, controlling, finance, management, marketing, financial analysis, tourism, statistics, and other economic domains.
